

# commBOXOS

Welcome to the CommBox Classic. After you have switched on the CommBox Classic, you'll be taken to the home screen. From the home screen you can use the shortcuts to navigate to the six most commonly used applications or drag new shortcuts onto the homescreen.

## commBOX Connect

To screenshare to the CommBox Classic, open CommBox Connect from the home screen, side menu or minimised top window and find your screen name. Choose from the connection methods below:

### For Windows PC using Miracast with touch

- Press Windows + K (Use image 'WindowsKey' in place of the word 'Windows')
- Find the device name in the list
- Click connect, and check the box to allow mouse, keyboard, touch and pen input from this device

### For Mac + iOS using Airplay

- Ensure the display and your device is on the same network
- Select screen mirroring from the menu on the Apple device
- Find the device name in the list
- Click connect

### For Chrome + Android using ChromeCast

- Ensure the display and your device is on the same network
- Select Cast from the menu on the Android/Chrome device
- Find the device name in the list
- Click connect

You can also use the CommBox Connect app installed on your device.

Download the app from [cc.commbox.com.au/downloads](https://cc.commbox.com.au/downloads)
